

### VICTORIAN LOCKDOWN 27<sup>th</sup> MAY 2021 THE REAL MEDIA COLLECTIVE ADVISORY GUIDE

#### **BACKGROUND**

As a result of increased numbers of positive COVID cases over the last few days (currently 26 people), and increased potential exposure sites (currently over 150 sites across Victoria) the Victorian Government has implemented a seven (7) day 'circuit breaker lockdown to give contact tracers time to track any additional cases and contain a wider outbreak of what appears to be a strongly communicable variant of the virus.

#### **COMMENCEMENT AND DURATION**

The state-wide lockdown will commence from 11.59pm tonight (27<sup>th</sup> May 2021) and last for a seven (7) day period until 11.59pm Thursday 3<sup>rd</sup> June 2021, subject to change.

#### **SCOPE**

All Victorians will only be allowed to leave home for one of five (5) reasons. Those reasons are for authorised work or permitted education, shopping for necessary food and services, exercise, caregiving, and COVID vaccination. Face masks must be worn both outdoors and indoors (other than in your home).

#### **IMPACT ON VICTORIAN MEMBERS AND EMPLOYEES**

Given previous lockdown experiences our industry was and continues to be categorised as authorised and an essential service supply chain provider and confirmed it can continue to be open for on-site work during this lockdown. Nonetheless, there are various business impacts and requirements as outlined below.

Although our industry is permitted and authorised to work throughout this seven (7) day lockdown, with the conclusion of JobKeeper some Victorian businesses (including clients of member businesses) may be impacted across the next week if they have to close or if employees are unable to attend work for COVID related reasons. When announcing the lockdown, the Victorian Acting Premier, James Merlino, has stated that there will be additional support to those business to be announced in the coming days.

#### STEPS FOR BUSINESS

TRMC recommends members undertake the following:

- > Clear and reiterated communication with all employees over the situation.
- > Ensure the ongoing currency of their COVID Safe Plans as a business priority.
- > Those employees that can work from home should be directed to do so.
- > Those employees that attend work are required to undertake safe practices in line with your COVID Safe Plan.
- > Ensure appropriate signage on COVID related safety requirements is displayed in the workplace.
